***This is a list of our most commonly used visit codes, laboratory testing, and immunizations. Serenity Pediatrics offers time of service (TOS) pricing on these services for our patients in place of billing insurance. Patients may choose TOS pricing if they have a high deductible or if they know that there is a test or procedure that their insurance will not cover. TOS pricing also includes laboratory testing and procedures as recommended by the clinician for office visits and well visits and immunization pricing includes administration. If opting to bill through insurance, Serenity Pediatrics offers standard payment options for the balance. Prices are subject to change without notification.**
